#### THE PHILOMATHIAN.

INTERESTING EXERCISES LAST WEDNESDAY EVENING.

The Association was entertain? ed on last Wednesday by the talented and scholarly L. W. Pulies on the future of the Negro. The meeting was called to order by the President, Mr. W. Calvin of Spanish, read the history of the Chase. A few extracts from Mr. Pulies paper will, no doubt, be in tere-ting reading to the patrons of my, geology, anotomy, physiology, the BEE.

Public opinion, based upon false reasoning and assumption is hostile to the Negro. It is a badly diseased condition and must be restored to a normal condition This must be attained by agitating the question of human rights.

The vital principle, the science of Government is to secure to each individual life, liber y and the the possible exhaustion of the sun's suitable resort for the members.

The Constitution guarantees and secures to each citizen the full enjoyment of those rights by which he consents to be governed. Speaks well of his charge and his success. The Negro and his descendants has faith in God, believes the Bible, on Thursday evening Nov. 28th., He will remain three weeks. He will be are as fully comp chended and relies upon its promises and takes for the benefit of the church. covered in these rights under the God at his word, is the giant of Miss Wormley will be assisted by Declaration by the Constitu-tion, and by the laws, as are citi-tion, and by the laws, as are citizens of any other race; and the calls learned, for they are all dumb will be rendered by some members Paper read by Mr. Hart last Tues- Government is as legally and to the Bible can only be of the Careno Club. J. . Coolidge,

Patented NOVEMBER 13TH, 1888.

THE GREATEST LIFE SAVING DEVICE.

J. S. Coolidge's Harness Attachment is the best thing of the kind ever put on the Market. It is so arranged that any one can secure it to any harness, in three minutes, without cutting the same in any way, right out in the street. It can be taken off the harness in two minutes, and the harness returned to its former style without the least trouble or exertion. It saves time in hitching and unhitching as a horse can be attached to the vehicle in less than 30 seconds and extricated in less than 5 seconds. It is an ornament to the harness and contains nothing in its parts to get out of order, the case being so constructed that the straps can be lengthened or shortened as is required. The Bolt is removable secured so as to allow the spring to be removed when worn. The particular advantage this device possesses over others consists in the constructions of the case and arrangements of the straps, whereby the same may be attached to any harness without cutting the same, as has heretofore been neccessary in order to use devices of this character.

To the loop of the Bolt may be attached lines 28, said lines being connected with the driver by suitable means, so that if the horse runs or becomes unmanageable, the tightening of the lines will draw the bolt 12, and the spring 24 will cast the plate 16 aside and release the animal from the vehicle. Any woman or child can hitch or unhitch a horse without the slightest trouble. Thousands of the attachments are being

used every day.

Price of GUIDE only 10 cents, including a Certificate good for 10 cents worth of Seeds. JAMES VICK, SEEDSMAN, Rochester, N. Y.

The BEE is the paper to publish your wants, for sale and all perso-

One of the growing towns of the South, is situated on both sides of Savan ah, Florida & Western Railroad, just tweive miles from Jacksonville, Fla. It is high, dry and level, and a successful hort?cultural and truck-growing section of the State. Dinamore can iss easily reached from Jacksonville by railroad, by water route, or by an hour and a half drive over an exceslent plank and shell road.

Dinsmore is not one of the isonsted spots that is only laid out on paper, but a thriving prosperous town that recommends itself to capitalist and laborer, to fathers and wives who are vigilant over their own interests and the welfare of their children, to those who are seeking homes and those who have capital to invest for speculation.

The land can be obtained at remarkably low figures and on terms suitable to the condition of every purchaser. At the present low figures a poor man can make regular payments on a valuable home with less than the aggregate of unnecessary expense or money actually thrown away. It is an investment that one cannot regret and through which you will realize many times the amount invested. The prices are for Front Business Lots one acre, \$65, \$50, \$35. Second choice, \$25 \$18. Third choice \$15. Fourth choice \$10. Fifth choice, \$5. It must be remembered that these are acre lots.

We also have vegetable and truck farms laid out adjacent to Dinsmore, containing from five to sixteen acres each, which we offer for the benefit of those who wish to farm at \$5 acre.

Our terms are one fourth cash and balance in one, two and three

The chain of title will be short and strong. It is from the State of Florida to the Railroad and from the Railroad to you.

Truck farming around Dinsmore would be at the door of two of the greatest markets in the South. Let every poor man if with but one dollar, commence to buy a lot in Dinsmore. The fare from Jacksonville and return is only twenty-five cents. Think of it. There are eight passenger trains per day and the round trip will only cost twenty-five cents. Trout creek, a large stream passes right through the vicinity, thus affording pure fresh water for stock, perfect drainage and abundance of fish.

TAKE WARNING NOW, and do not let this grand opportunity slip you. It is the very best chance you will have to secure a good piece of valuable property and such

startling prices. The merchants in Dinsmore are enjoying a good trade and the town w is rapidly growing. Saw mills are convenient for securing timber to build, an I laborers who desire work can get from a dollar and a half to two dollars per day.

For further informattion or plats and how to see Dinsmore, call on
